You have asked WHY SHOULD I BELONG
TO THE COLUMBIA COUNTY
BUILDERS' ASSOCIATION...

Please review information inside and
this will help you decide.

1. As a member of the construction industry don't you feel it is your obligation to support our industry's voice in governmental matters. By joining CCBA you can do that.
2. As a member of our community and associated with builders, subcontractors and suppliers, it simply makes sense to rub shoulders with others in the same trade. The more you interact, the better we all are.
3. Most importantly though is the valuable information that may be discussed and provided to those in attendance at meetings and luncheons. Any information gathered, no matter how small, helps me improve my business and has great value.

This is why Don Reed (Don Reed Construction) values his CCBA membership.

In addition - you are not only a member of our local organization but the state (FHBA) and national (NAHB) organization - these groups have a huge amount of lobbying power in Washington, D C, plus Tallahassee at a local level.

Now, think about this, you also enhance your business through networking. Become involved, because in this day and age, you need to make new business contacts through meetings, social events and committee participation. Our entire country has changed; therefore, we must change the way we think. Join CCBA - come out to meet our members who are engineers, bankers, sub-contractors, suppliers and other companies with interest in Columbia County building industry.
